

## Family Business Album

Charlene & George Kennedy, owners, Kennedy Kitchens

**K**ennedy Kitchens has been family-owned and operated since 1972 and has helped central Illinois homeowners realize their dreams by providing expert design throughout the home. Owner and founder George Kennedy prides himself on offering a level of personalized service and experience that sets this business apart from the competition. Over the years working in large and small spaces, Kennedy has developed expertise in the area of storage solutions and enjoys the challenge of making space for everything. Always striving to stay a step ahead in this highly competitive industry, he spends count-

less hours researching the latest styles and newest features, resulting in his well-deserved reputation for excellence and innovation.

"My goal has always been to provide expert service, creative design, quality materials and competitive pricing," Kennedy says. "I have worked side by side with hundreds of families and builders and helped them work through the puzzle of kitchen and bath design."

In 1986, George and Charlene Kennedy formed **Creative Bath & Brass** in conjunction with Kennedy Kitchens, expanding the range of products and services available to customers. Creatively integrated within their 2,000 sq. ft. showroom, Creative Bath & Brass showcases an impressive selection of

upscale fixtures and accessories to complete the design picture with a splash of color and style. According to Kennedy, the bath is the room that often becomes a remodeling priority for homeowners. By bringing together expert design services, planning, installation, and quality fixtures and cabinetry, Kennedy is known for creating elegant looks even in small spaces. According to George Kennedy, "Small spaces do not limit creativity... there are so many exciting and affordable possibilities."

Kennedy Kitchens has been recognized as a Top Design Firm In Customer Value in both 1999 and 2000 by SEN Buying Group.
